

## **REMARKS**

### **The Amendments**

The claims are amended to remove the “solvate” term in order to render moot the 35 U.S.C. § 112 rejection. Claims 1 and 8 are further amended to correct obvious typographical errors. It is submitted that the above amendments would put the application in condition for allowance since they render moot the sole remaining ground of rejection. The amendments do not raise new issues or present new matter and do not present additional claims. The amendments have been made to direct the claims to the indicated allowable subject matter in view of the withdrawal in the Final action of the other rejections previously made. Thus, the amendments were not earlier presented. Accordingly, it is submitted that the requested amendments should be entered.

Applicants reserve the right to file one or more continuing and/or divisional applications directed to any subject matter disclosed in the application which has been canceled by any of the above amendments.

### **The Rejection under 35 U.S.C. § 112**

The rejection of claims 1-5 and 8 under 35 U.S.C. § 112, first paragraph, for lack of enablement is rendered moot by the above amendments. The “solvate” term giving rise to the rejection is canceled from the claim. Applicants remain of the opinion that providing solvates would not require undue experimentation and reserve the right to prosecute this subject matter in a continuing application. The claims are amended merely to facilitate patenting of the indicated

allowable subject matter.

It is submitted that the application is in condition for allowance. But the Examiner is kindly invited to contact the undersigned to discuss any unresolved matters.

The Commissioner is hereby authorized to charge any fees associated with this response or credit any overpayment to Deposit Account No. 13-3402.

Respectfully submitted,

/John A. Sopp/
